

## Quote of the month:

„Since the beginning of the year, driving instructors of the training class B received a surplus in wages of about 2% for their practice and theory lessons. Just like the wage development for motorcycle training, the East-German regions made a big adjustment towards the western wages. There the driving instructors for car training saw an increase in wages by about 11%.“ **Jörg-Michael Satz**, president of MOVING Road Safety Association International e. V.
