

„According to the 2019 MOVING learner driver survey, over 40% of learner drivers paid for their own driver’s license. 40% of respondents to the YouGov survey said they paid for their first car entirely themselves. The average acquisition cost was €5,000. From a safety perspective, novice drivers in particular should gain their experience on the road in modern vehicles.“

Jörg-Michael Satz, Präsident of MOVING International Road Safety Association e. V.
