

## CHART OF THE MONTH FEBRUARY 2022

## Quote of the month

"Mobility Monitor 2021: 57% of respondents expect cars to run on electricity in the future. But only 23% of citizens would like this to happen. The Acatech study reveals large discrepancies between expectations and respondents' own wishes."

Jörg-Michael Satz, President MOVING International Road Safety Association e. V.

## Desirable ideas

Question: "How do you envision mobility in 10 years? Which of this list do you think will apply?" "And which of these would you like to see, what would you think is good?"

More and more professionals no longer have to be at work to work,		
but can also work from home or on the road.	71%	39
Immer mehr Innenstädte werden für den Autoverkehr gesperrt sein	64%	27
In the event of an accident, cars automatically inform the emergency services or breakdown service	62%	48
he cars of the future will be powered by electricity	57%	23
