

## Quote of the month

„According to the latest representative learner driver survey, learner drivers need less than 15 minutes on average to get to the driving school. The surveys in 2017 and 2019 already came to this conclusion. For years, the distance to the driving school has been the top criterion for choosing a driving school.“

**Jörg-Michael Satz**, Präsident MOVING International Road Safety Association e. V.

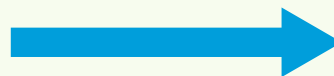

## Distance to the driving school: On average, it takes 14 minutes from the place of residence / training.

Directions to the driving school (from the place of residence / work); N = 620 - 800

Actual Journey  
to the  
driving school

Ø 14 minutes

2017: 15 minutes  
2019: 15 minutes
