

Quote of the month

„From 2015 to 2023*, the number of people with a driving instructor license up to the age of 74 increased by 2.4%. The lowest number was in 2018, with 44,092 registered driving instructors. Since then, the number has grown by 2,246 or 5.1% by 2023*. I would also like to mention that, according to our estimates, only about 32,000 driving instructors are actively working in driving schools, which corresponds to about 70% of all people registered with a driving instructor license at the KBA.“

*The recording of numbers by the Federal Motor Transport Authority (KBA) has been restructured. Since June 14, 2023, data on driving instructors, experts, or examiners are no longer deleted upon completion of the 75th year of life, but only upon completion of the 110th year of life. This calculation was based on a maximum age of 74 years in order to be able to compare the values with previous years.
