

Quote of the month

„According to a representative MOVING survey from January 2025, only 52% of driving schools are planning to purchase a new car in the current year - significantly less than in the previous year (61%). The proportion of all-electric vehicles in these planned new purchases is falling slightly: from 19% in 2024 to 17% in 2025. Vehicles with diesel engines continue to dominate: 65% of planned new purchases in 2025 are expected to be diesel-powered.“

Jörg-Michael Satz, President MOVING International Road Safety Association e. V.

Purchase of new driving school vehicles

Class B in 2025 by propulsion type
