

## Quote of the month

“The number of AFBG-funded professional training programmes for driving instructors more than doubled between 2018 and 2025. While the number of funded male participants increased by 150.1%, the number of funded female participants grew even more strongly, rising by 169.3%. Despite this above-average growth among women, their share of participation in professional training programmes for driving instructors remained largely stable throughout the period under review, accounting for approximately 28% to 30% of all funded participants.”
